SCHOOL OF CLINICAL MEDICINE

Appreciation Note

Dr Ronisha Sathiram
HOD: Urology (Greys Hospital)

The School of Clinical Medicine would like to acknowledge Dr Ronisha Sathiram for her sterling contribution and active involvement in the registrar training program in the Discipline of Urology. Dr Sathiram kept the training program going even during the tough time when the Durban circuit of Urology lost accreditation. To this date, she has continued to support and drive this training program.

Dr Sathiram is based at Greys Hospital as Head of the Urology Department. She was previously the Acting Head of the Department of Urology at the University of KwaZulu-Natal during the time when the Durban circuit had lost accreditation for training registrars. As a result registrars that were based in Durban relocated to Pietermaritzburg to complete their training.

"As the only full time specialist at Greys hospital she has done a sterling job in training these registrars to become specialists. She continues to be an integral part of our Department, contributing meaningfully to the training program." - **Dr Haroun Patel: (HOD: Discipline of Urology-UKZN)**

Thank you Dr Sathiram for the wonderful work you do for the Discipline of Urology -UKZN.
- **Prof Ncoza Dlova**
